

ALLISON T. MOODY
Center for Limnology, University of Wisconsin
Madison, Wisconsin 53706
atmoody@gmail.com • 510.684.4999

EDUCATION

- Ph.D. Wildlife Sciences** 2012
School of Forestry and Wildlife Sciences, Auburn University
Supervisor: Dr. Barry Grand, USGS Cooperative Fish and Wildlife Research Unit
Dissertation: Designing landscapes for sustainable bird populations in the southeastern United States
- Determined areas of high conservation priority for multiple habitats and species
 - Used expert knowledge to select focal species for conservation planning
 - Modeled changes to conservation priorities due to projected climate change and urbanization
- M.Sc. Biology** 2007
Department of Biology, University of Saskatchewan
Supervisor: Dr. Keith Hobson, Western University (previously: Environment Canada)
Thesis: Arctic seabird trophic levels and foraging locations using stable isotopes
- B.Sc. (Honours) Biology** 2001
Department of Biology, Memorial University of Newfoundland

RESEARCH EXPERIENCE

- Post-doctoral Research Associate* September 2014–present
Center for Limnology, University of Wisconsin, Madison, Wisconsin
- Evaluating spatial patterns in aquatic barrier removal using ArcGIS and R to determine rules of thumb for removal that extend beyond the Great Lakes basin
 - Working with colleagues on a decision support tool for optimized barrier removal across the Great Lakes basin (greatlakesconnectivity.org) including leading the review of the website by stakeholders
 - Contributed to aquatic barriers database including incorporating new data sources, QA/QC of existing data, and coordinating metadata for recent update
- Post-doctoral Research Associate* 2012–2014
Department of Wildlife, Fisheries, and Conservation Biology, University of Maine, Orono, Maine
- Modelled species distributions for over 70 reptiles and amphibians using ArcGIS and Maxent, and informed by expert knowledge
- Research Technician* 2005–2007
University of California – Berkeley, Berkeley, California
- Ran stable isotope laboratory including sample collection from natural history museums, sample preparation, and analysis of results
 - Supervised undergraduate research assistant

- Contracted Researcher* 2005
Canadian Wildlife Service, Redberry Lake, Saskatchewan
- Organized and conducted summer field research for long-term White-winged Scoter study including boat-based surveys for scoters and other aquatic birds; nest monitoring and banding adults and chicks
 - Responsible for hiring and supervising technician
- Contracted Researcher* 2001
Canadian Wildlife Service, Prince Leopold Island, Nunavut
- Conducted field research for long-term seabird study at remote Arctic field site
 - Assisted with preparing for field season
 - Worked with team to collect observations and blood samples from seabirds

PEER-REVIEWED PUBLICATIONS

Milt, A.W., P.J. Doran, M.C. Ferris, **Moody**, A.T., T.M. Neeson, and P.B. McIntyre. *in press*. Benefits for local restoration of considering options at broader scales. *River Research and Applications*.

Moody, A.T., T.M. Neeson, S. Wangen, J. Dischler, M.W. Diebel, M. Herbert, M. Khoury, E. Yacobson, P.J. Doran, M.C. Ferris, J.R. O’Hanley and P.B. McIntyre. 2017. Pet project or best project? Online decision support tools for prioritizing barrier removals in the Great Lakes and beyond. *Fisheries* 42: 57-65.

Sutton, W.B., K. Barrett, A.T. **Moody**, C.S. Loftin, P.G. DeMaynadier, and P. Nanjappa. 2015. Predicted changes in climatic niche and climate refugia of conservation priority salamander species in the northeastern United States. *Forests* 6: 1-26.

Moody, A.T., K.A. Hobson and A.J. Gaston. 2012. High-Arctic seabird trophic response to an anomalous year revealed through long-term isotopic monitoring. *Journal of Ornithology* 153: 1067-1078.

Moody, A.T. and J.B. Grand. 2012. Incorporating expert knowledge in decision support models for bird conservation. In: *Expert Knowledge and Its Application in Landscape Ecology*, Ajith H. Perera , C.Ashton Drew and Chris J. Johnson (eds.). Springer, New York, pp. 109-129.

Moody, A.T. and K.A. Hobson. 2007. Alcid winter diet in the northwest Atlantic determined by stable isotope analysis. *Marine Ornithology* 35: 39-46.

Moody, A.T., S.I. Wilhelm, M.L. Cameron-MacMillan, C.J. Walsh, and A.E. Storey. 2005. Divorce in common murre (*Uria aalge*): relationship to parental quality. *Behavioural Ecology and Sociobiology* 57: 224-230.

ORAL PRESENTATIONS

Moody, A.T., T. Neeson, A.W. Milt, M. Diebel, M. Ferris, J. O’Hanley, P.J. Doran, L.B. Johnson, and P. McIntyre. 2016. Unpacking large-scale optimization of barrier removal to

benefit small-scale decision makers and Great Lakes migratory fish. Ecological Society of America, Fort Lauderdale, FL.

Moody, A.T. and J.B. Grand. 2009. Incorporating expert opinion in decision support models for birds in the Eastern United States. Special Symposium: Expert knowledge and landscape ecological applications. US-International Association for Landscape Ecology, Snowbird, Utah.

Moody, A.T. and K.A. Hobson. 2005. Winter ecology of Common and Thick-billed Murres (*Uria aalge* and *U. lomvia*). Pacific Seabird Group and Waterbirds Conference, Portland, Oregon.

COMPUTER SKILLS

Statistics: R, Matlab, SPSS, MARK

GIS: ArcGIS 10, 9

Graphics: SigmaPlot

Other: Word, Excel, Access, Linux, LaTeX

REPORTS

Contributed to annual and quarterly reports for the following funded grants:

2016 Informing Great Lakes connectivity decisions: An enhanced online portal for high-resolution barrier data and species-specific benefit analyses; Great Lakes Fishery Trust Grant

2014-2016 Restoring native fish migrations while controlling invasive species: an optimization approach to support decision-making; University of Michigan Water Center, Great Lakes Large Grant

2012-2014 Assessing priority amphibian and reptile conservation areas (PARCAs) and vulnerability to climate change in the North Atlantic Landscape; North Atlantic Conservation Cooperative Grant

2008-2012 Designing Sustainable Landscapes for Bird Populations in the Eastern United States; Association for Fish and Wildlife Agencies Multistate Conservation Grant

TEACHING and MENTORING EXPERIENCE

2014-2016 Lectures at University of Wisconsin

- Fish Ecology – Connectivity in the Great Lakes

2012-2013 Lectures at University of Maine

- Applications of Remote Sensing and GIS in Natural Resource Management
- Biology of Behavior

Mentored E. McCarthy, (BS 2016), undergraduate student in independent project, "The effects of climate change and urbanization on core habitat for common Maine herpetofauna"

2011-2013 Lectures at Auburn University

- Structured Decision Making for Natural Resource Management
- Wildlife Population Analysis

2003-2005 Laboratory Instructor, University of Saskatchewan

- First Year Biology

SERVICE, OUTREACH and PROFESSIONAL SOCIETIES

Member of the following professional societies: Ecological Society of America, Society for Conservation Biology, Society of Freshwater Science, Society of Canadian Ornithologists-Société des ornithologistes du Canada.

Reviewer for: Animal Behaviour, Ecological Applications, Frontiers in Ecology and Evolution, Inland Waters, and Journal of Ornithology.

Lead organizer of North American Congress for Conservation Biology symposium
"Conservation of aquatic ecosystem connectivity: from planning to practice"

Outreach:

2016

- Revitalizing Our Ravines: Community Workshop, Glencoe, IL
- World Fish Migration Day, Shedd Aquarium, Chicago, IL
- CurrentCast Podcast (<http://www.currentcast.org/development/fish-barriers-great-lakes/>)

2015

- Healing Our Waters Great Lakes Restoration Conference, Chicago, IL

OTHER

Certified in Wilderness First Aid

Experience with snowmobiling, small boats, and bear safety.
